(A) celebrate (B) contemplate (C) overcome (D) analyze

III. 綜合測驗 25% (每題 1 分)

A few years ago, I worked for the McDonald's Corporation, where I took part in an event _____ 21 "Ronald Day." On this day, I dressed _____ 22 Ronald McDonald and visited children at a local hospital. Many of these kids were dealing with terminal illnesses, and my goal was to bring them some joy and laughter, which I found incredibly rewarding.

One important rule of my job was that I couldn't visit the children alone in costume, as my painted face and red wig might scare them. I was also not allowed to have any physical contact to avoid _____ 23 germs. While I understood the reasons for these rules, I often felt that nothing expressed love and empathy quite like a warm hug.

One day, as I was about to leave the hospital, I _____ 24 a faint voice calling me from a half-open door. "Ronald," it said, so I went inside. There, I found a five-year-old boy named Billy, _____ 25 in bed and looking very weak and pale. His parents smiled at me, but it was heartbreaking to see such a young child in this situation. I wanted to cheer him up, so I did some magic tricks, which made his eyes light up. When I asked if there was _____ 26 else I could do, he replied, "Ronald, can I have a hug?"

It pained me to say no, but I explained that it was _____ 27 the rules. Instead, I suggested we do some coloring. After a while, as I prepared to leave, Billy _____ 28 out his little arms to hug me. I saw the hope in his eyes. I realized that some moments were more important than rules, so I picked him up and held him close.

We talked for a while, and he shared his worries about his little brother and their dog. It was clear he knew he wouldn't be going home, yet he was only thinking of others.

Before I left, I gave Billy's parents my phone number, encouraging them to call if they needed anything. Two days _____ 29, Billy's mom called to tell me he had passed away. She thanked me for making a difference in his life, sharing that he had told her, "Mommy, I don't mind if I can't see Santa this year because I _____ 30 Ronald."

21. (A) call (B) calls (C) called (D) be called
22. (A) with (B) as (C) by (D) for
23. (A) spread (B) spreads (C) spreading (D) being spreading
24. (A) heard (B) got (C) listened (D) voiced
25. (A) lying (B) lie (C) laying (D) lied
26. (A) everything (B) everyone (C) somewhere (D) anything
27. (A) at (B) by (C) from (D) against
28. (A) stretched (B) appeared (C) found (D) forced
29. (A) last (B) later (C) latter (D) lastly
30. (A) have hugged (B) hug (C) hugs (D) had hugged

(B) The Marshmallow Challenge is an enjoyable team-building exercise _____ 31 for highlighting the importance of teamwork, creativity, and adaptability. In this activity, teams have 18 minutes _____ 32 twenty sticks of dry spaghetti, a yard of tape, a yard of string, and a marshmallow to construct the tallest free-standing structure that can support the marshmallow on top. _____ 33 by Tom Wujec, this challenge has included a variety of groups, _____ 34 architects and CEOs to kindergarteners, and the results are surprising. _____ 35 architects and engineers usually build the tallest structures, business graduates and lawyers often do _____ 36. Kindergarteners frequently outperform many adults because they approach problems differently. Their success stems from getting started quickly and being willing to experiment. One reason for this is _____ 37 they start building right away, allowing them to adjust their designs based on what works. This hands-on approach encourages creativity and helps them find effective solutions without lengthy planning. They don't wait _____ 38 later to begin; instead, they dive in immediately. Additionally, kids tend to collaborate naturally without needing a leader, which makes their building process more efficient.

Overall, the Marshmallow Challenge shows that success comes from trying things out, adapting quickly, and collaborating well, rather than just relying on age or experience. It reminds us that _____ 39 our goals, we should engage actively, explore new ideas, and work together as a team. _____ 40, we can foster creativity and enhance our chances of success.

31. (A) known (B) knew (C) knows (D) were knew
32. (A) for (B) with (C) since (D) about
33. (A) Creates (B) Creating (C) Created (D) Create

34. (A) for (B) both (C) from (D) beyond
35. (A) Because (B) While (C) Though (D) If
36. (A) bad (B) worst (C) worse (D) the more worse
37. (A) that (B) which (C) x (D) in which
38. (A) until (B) and (C) neither (D) for
39. (A) reaching (B) reached (C) to reach (D) be reached
40. (A) In this way (B) Rather than (C) Another reason (D) Instead

Learning a second language takes a lot of effort, but it's worth it. The most obvious 41 is the ability to communicate in a new tongue and the increased opportunities that come with this skill. However, there are other advantages of language learning that you may not know. For one, speaking a second language 42 more of your brain than speaking your mother language does. This extra mental exercise helps keep your brain in good shape and protects against age-related brain diseases. A 2010 study found that people who were bilingual 43 signs of dementia later than those who weren't. Additionally, being bilingual improves your ability to focus. The need to switch 44 different languages requires bilingual people to regularly shift their attention from one language to the other. 45, they can better ignore distractions and focus on the task at hand.

- (A) exhibitions (B) immigrated (C) boasts (D) distinct (E) tickle

V. 閱讀測驗 10% (每題 2 分)

It's widely known that sleep is essential for our health, but how sleep affects our brains has remained a mystery to scientists for a long time. However, some recent studies have shed light on the functions carried out during sleep. In a 2013 study, scientists found that in mice, the space between brain cells increases while they sleep. Another study by Boston University in 2019 showed that memory formation also causes changes in blood flow and the movement of toxins in the brain. Two years later, scientists at Northwestern University discovered that when fruit flies are in deep sleep, fluids move through their bodies to clear waste and heal injuries. These findings led scientists to conclude that there is an important link between sleep and waste removal. This harmful waste can result in brain disorders such as Alzheimer's and depression.

Now that we know the importance of sleep for brain health and disease prevention, we should try to get quality sleep. However, getting a good night's sleep is not always easy. To improve your chances of sleeping well, make sure to keep a regular sleep schedule. Go to bed and get up at the same times each day, even on weekends. Next, avoid foods and drinks containing caffeine, such as chocolate and coffee, for at least six hours before bedtime. Finally, don't look at your phone or watch TV in bed, as the light they produce can keep you awake. These are just a few helpful strategies to ensure that you get enough sleep to keep your body and mind as healthy as possible.

51. What has puzzled scientists for years?
(A) How sleep affects our brain functions.
(B) Why some people sleep better than others.
(C) How light influences one's sleep quality.
(D) Why some animals have unusual sleep habits.
52. Which of the following statements is TRUE about the 2013 study?
(A) It was conducted by scientists at Northwestern University.
(B) Scientists observed what happened after mice fell asleep.
(C) It was based on the results of the study by Boston University.
(D) Scientists compared the brains of mice with those of fruit flies.
53. Which conclusion did the three studies reach?
(A) A lack of sleep can kill brain cells and result in brain diseases.
(B) Animals' sleep cycles differ from humans'.
(C) Sleep can remove waste that is harmful to our bodies.
(D) Our dreams help us form memories.
54. What is mentioned as something we can do to get better sleep?
(A) Listen to soft music in bed.
(B) Sleep at the same time every day.
(C) Go to bed as early as possible.
(D) Get up as soon as your alarm goes off.
55. What might prevent us from sleeping well, based on the passage?
(A) Having food high in fat during the day.
(B) Getting up early on weekends.
(C) Watching TV four hours before dinner.
(D) Using screens around bedtime.

第二部分：手寫題 佔 40%（請務必將答案寫在答案卷上，否則不予計分）

I. 混合題 10%（每題 2 分）

Wigs have served various purposes for thousands of years, from fashion statements to disguises and covering hair loss. Their societal roles have evolved significantly throughout history. The earliest known wigs date back to around 3400 BC in Egypt, where they were worn exclusively by the wealthy and powerful as a mark of status. In ancient Greece and Rome, wigs were primarily used for theatrical performances.

During the Middle Ages, wigs fell out of favor in Europe due to the church's condemnation, labeling them as "badges of the devil." However, as the church's influence waned in the Renaissance, wigs experienced a resurgence in popularity, largely thanks to Queen Elizabeth I of England, who owned more than 80 wigs to conceal her thinning hair.

King Louis XIV of France greatly enhanced the wig's status, making them essential for the European nobility. Renowned for his extravagant lifestyle, the king favored long, elaborate wigs, inspiring other royals and nobles to adopt them as key fashion items. This influence continues today, as wigs are still worn by judges and lawyers in England to signify authority. Historically, wigs have been vital for creativity and self-expression, and they are likely to remain significant in people's lives well into the future.

56. In which period did wigs become popular again after being out of fashion?

(A) Middle Ages
(C) Baroque

(B) Renaissance
(D) Victorian

57. What role did King Louis XIV have in the popularity of wigs?

(A) He popularized them among the nobility.
(C) He only wore them for theatrical performances.

(B) He banned their use.
(D) He invented the first wig.

58. How did wigs change in their societal roles over time?

- (A) They became less popular with the rise of natural hair trends.
(B) They shifted from status symbols to everyday wear.
(C) They evolved from being exclusive to the rich to being worn by various professionals.
(D) They have remained unchanged in their purpose throughout history.

59. What was the original purpose of wigs in ancient Egypt?

60. Who wears wigs in the legal system in England?

II. 單字填空 20 % (每題 2 分)

61. Symptoms of the i_____s include a high temperature and a persistent dry cough.
